NATURAL PRESENCE

The Mitsubishi Pajero has natural presence both on and off the road. Its powerful profile and confident stance command respect and exude adventure. But whether you admire it from the front, the side or the rear, the solid design of the Pajero never overwhelms its stately appearance. If we hadn't told you about its unsurpassed desert prowess, you might never have guessed.

INDIVIDUAL CHARACTER

When you first considered purchasing a Mitsubishi Pajero, you'll have been thinking about more than getting from A to B in comfort and style. And even if you haven't yet experienced its superior handling and sheer power at first hand, you'll certainly have pictured yourself behind the wheel - towing a trailer, fording a river...

The accessories on these pages have been especially crafted to give your Pajero individual character and meet diverse personal needs. Think back to your test-drive, think forward to what your new 4x4 will be doing for you. The opportunity to finalise its look and feel is in your hands.

LUXURY AND SPECTACULAR VIEWS

Sitting up high in your new Pajero, you'll soon notice that the view is spectacular whichever way you look. Adjusting your focus to the interior, you'll also soon appreciate the fine balance Mitsubishi engineers have struck between functional design and luxury finish. There's not a knob or switch too many, yet not a trick to be desired.

Your chance to tailor the Pajero's luxury interior to your own personal taste is right now. You may wish to see its wood, aluminium or metal look finish on the centre and door consoles, too, for instance. The choice is yours. And with the vehicle's fully-integrated communications and entertainment system, you may well elect to take the long way home.

NEVER A BORING MOMENT

The Mitsubishi Pajero offers drivers a fantastic motoring experience. Its handling is superb and its response second to none. Even those not at the wheel will appreciate that. But long journeys to exciting places eventually mean boredom, especially to younger passengers inherently most eager to get there.

The state-of-the-art 30Gb harddisk audio & navigation system, featuring the latest in mapping and sound technology, will certainly ensure that you take the quickest route. But there's more. To keep everyone in the back really quiet, Mitsubishi Motors engineers have developed a rear-seat entertainment system the kids will probably want at home. With its large, 9" screen and two pairs of wireless headphones, they can watch films and play games to their hearts' content while you enjoy the drive. And perhaps your favourite concert.
