OUTLANDER

DESIGNED TO THE LIMIT

All Mitsubishi's are designed to go to the limit in one way or another. The Outlander is no exception - the engineers at Mitsubishi Motors have explored the limits of the family driving experience and come up with the ultimate in comfort, safety and versatility. You'll find that the Outlander meets and exceeds the demands of the busiest schedule, the most active of lives and the most diverse family habits. In the grand scheme of things, anyway.

We know a lot about high-performance vehicles at Mitsubishi Motors, but we don't pretend to know the desired design specs of all our customers in fine detail. So please take your time to think about exactly what you'll be doing with your new Outlander and select the accessories from this brochure that best reflect your taste, style and needs.

I GOTTA MOVE

Much time and effort has been invested in combining function and form to create the Outlander’s robust and yet distinctly sporty good looks. Successfully. We’re confident about its I-gotta-move identity. And with the accessories on these pages we’re also confident that you will be able to enhance the car’s functionality to your own individual needs and requirements and at the same time accentuate just those features you feel will give it the perfect finish to suit your style. The smart and functional rear bumper protection plate, for instance, for intensive loading and unloading.

ERGONOMICALLY EXECUTED

The refined interior finish of the Outlander leaves nothing to be desired for driver and passengers alike. For the driver, a natural, commanding driving position, ergonomically executed controls and maximum visibility; for everybody else, lots of legroom and space for fun and games. Even so, depending on your personal taste and situation, you may wish to consider one or two stylish extras that will enhance your comfort and overall driving experience even further.
